DENNIS STARTS THE FIREWORKS

Prosecutor's "Clean-up" Campaign
Begins With Eight Arrests For
Keeping Gambling Devices.

SAYS MORE WILL FOLLOW

Causes Much Surprise as Penny Slot-
Machines Were Thought to
be Safe.

That Prosecutor O'Neil was in
dead earnest about that "clean-up"
business was shown this afternoon
when he filed eight affidavits against
as many different business houses,
charging them with keeping a gam-
bling device. According to the pros-
ecutor this is the first step and more
developments may be expected to-
morrow.

The men arrested were T. W. Bet-
ker, on two charges, James H. Bar-
rett, Marvin Lively, John Walker of
the Maibaugh and Walker firm, Dem-
mer Bros., Fred Gale and Clyde Mil-
ler of the Grand hotel. All the men
gave bond for their appearance be-
fore Squire Kratzer and the cases
were set for trial next Wednesday
morning at nine o'clock.

As will be seen the first steps
against the alleged gambling by the
prosecutor were made on the penny
slot-machines. According to Mr.
O'Neil more arrests are to follow, as
he says this is not near all the slot-
machines in the city and he is deter-
mined to get them all.

The action of the prosecutor came
as a great surprise and was like a
bolt from a clear sky. While most
anything has been expected since he
gave out his interview in which he de-
clared he would "clean-up" the city,
nothing against the slot-machines
was expected. It was learned this
morning that Mr. O'Neil had deter-
mined on a course of action, but just
what this was could not be deter-
mined until the affidavits were filed.

Mr. O'Neil stated that he had to
commence some place and thus the
start was made with the slot-ma-
chines. "If they thought I was not
in earnest they were mistaken," said
Mr. O'Neil, "and should have heeded
the warning. I told them all the time
I was going to 'clean-up' and so it
has started."

The cases against the men named
in the affidavits will be heard by
Squire Kratzer and are expected to
attract considerable attention as it is
said to be one of the few cases of the
kind ever filed here. The lowest fine
upon conviction is \$25.

MUMPS IN COURT HOUSE.

An epidemic of mumps threatens
the county officials in the court house.
Miss Nora Sleeth, deputy recorder,
and Birney Spradling, deputy clerk,
are suffering from them and Verne
Norris says he thinks he sees a
swell time coming his way.

JUST ENFORCING LAW

Connersville News: Every saloon-
keeper in the city has been notified
by the police force and through them
by the mayor, that the maintenance
of pool or billiard tables in their
places of business is unlawful. The
notification was made several days
ago and was quietly done, and it is
understood that the saloonkeepers,
after conferences among themselves,
have practically all decided to abide
by the decision.

THE WEATHER

A picture of the steam shovel made
at the Arbuckle & Company foundry
in this city, and taken here, appears
in the February number of Popular
Mechanics. The picture was taken
in West Third street just east of the
L. E. & W. railway station when the
excavation was being made there for
laying brick pavement. Workmen
engaged there are easily recognized
in the photograph. The first steam
shovel of this sort was made here,
but they are being manufactured in
Keokuk, Iowa, now.

CONSIDERS IT SERIOUSLY NOW

James E. Watson May Make the Race
For Congress in Sixth District,
According to Dispatch.

CONFERS WITH HIS FRIENDS

Former Representative James E.
Watson of Indiana has been in Wash-
ington conferring with political friends
and as a result of these conferences
is seriously considering the advisa-
bility of announcing his candidacy
for the Republican nomination for
congress in the district now repre-
sented by Finly Gray, says a Wash-
ington dispatch.

The district, which is regarded as
normally Republican, was carried in
1910 by Gray, Democrat, by 1500
majority. Mr. Watson, who left con-
gress to make an unsuccessful race
for governor of Indiana, believes that
he is now in a position to rehabilitate
his political fortunes and that he may
be able in a presidential year, to re-
claim the district for the Republi-
cans.

THIRD FIRE IS DISASTROUS ONE

Destroys Dr. F. W. Gregor Property
in Which John Tarbet and Fam-
ily Lived, in Carthage.

DEFECTIVE FLUE IS NEW ONE

A two story residence in the heart
of Carthage, owned by Dr. Frank W.
Gregor, and inhabited by Mr and Mrs.
John Tarbet and family, was com-
pletely destroyed by fire yesterday.
The fire originated from a defective
flue. Mr. Tarbet carried no insurance
and practically all of the contents of
the house were destroyed with the
exception of a few household goods
on the first floor which were saved.
Six hundred dollars insurance was
carried on the house and only Wed-
nesday the policy was renewed.

This is the third time the house
has caught fire during the time it has
been occupied by the Tarbet family,
each time the blaze originating from
a defective flue. After the second
fire the old flue was torn out and a
new one built. This was thought to
be perfectly safe. A red hot fire was
in the stove connecting to the flue
where the fire originated. The Car-
thage bucket brigade could do little
but protect the adjoining property.
The engine which is operated by hand
power could make little headway
when the fire had such a good start.

The Palace theater will open to-
morrow afternoon with a matinee
show. The theater has been closed
since Monday night to make repairs.

TOM WILSON IN INSANE ASYLUM

Man Implicated With Becraft Declared
of Unsound Mind and Taken
to Madison.

WAS SENT FROM GREENSBURG

Becraft May Possibly be Innocent,
According to Attorneys Who
Followed Both Cases.

Thomas Wilson who was tried at
the last term of court on a grand
larceny charge, the jury disagreeing,
has been declared insane, and is now
at the Madison asylum. Such was
the word received this morning by
George Young, who was Wilson's at-
torney.

An insanity inquest was held in
Greensburg, Wilson's old home and
the home of his brother, John F. Wil-
son. The accused man was released
from the jail here under bond only
recently, going to the home of his
brother.

It will be remembered Wilson was
implicated with Albert Becraft in the
stealing of \$80 worth of furs from
the Bowles brothers' camp north of
the city. Becraft was convicted and
is now at the Jeffersonville reforma-
tory serving an indeterminate sen-
tence of from one to fourteen years.
Becraft according to attorneys and
people who have followed the case,
was convicted on the evidence of
Wilson. Now that Wilson has been
declared insane the case against him
is ended.

Since Becraft was practically con-
victed on the evidence of an insane
man, it may have some weight in se-
curing his freedom. George Young
said this morning that it might be
possible that Becraft was innocent.
On the witness stand Becraft denied
everything Wilson said and told just
the opposite. At the time of the trial
many were heard to say that Wilson
did not seem rational and did not
think he was responsible for what he
said or did. One of the things im-
pressed upon the jury was his phys-
ical condition and attorneys assert
this caused the jury to hang.

Will M. Sparks, who defended Be-
craft, said that just what effect Wil-
son's insanity will have upon a new
trial or upon the court, he could not
say. Mr. Sparks said he knew noth-
ing of Wilson being declared insane
and could not state as to whether or
not an effort would be made to free
Becraft.

CHARGES ABANDONMENT.

Shelbyville Democrat: The second
complaint filed Thursday is very brief
perhaps the briefest ever filed in the
circuit court. It was prepared by At-
torney E. W. McDaniel for Samuel S.
Henderson of Blue Ridge who is ask-
ing a divorce from his wife, Mrs. Re-
becca Henderson, on the ground of
abandonment. The complaint states
the couple was married December 16,
1897, and that the separation occur-
red August 8, 1900.

KEEP JACK FROST AWAY.

Greensburg merchants whose
windows have been covered with
such heavy frost that persons
on the outside could not see the
displays, now keep the frost
from forming by the use of
electric fans. The breeze blown
on the glass keeps the inside of
the glass almost as cold as the
outside and prevents sweating.
In this manner the merchants
keep off the coating of "Jack
Frost's landscape painting" and
their windows are clear and
transparent.

SOME NEAR ZERO WEATHER IS DUE

Temperature Will Drop Tonight and
be Followed by Slowly Rising Tem-
perature Tomorrow.

10 DEGREES ABOVE AT 7 A. M.

Lowest Temperature Recorded in
Rush County in 30 Years is
26 Degrees Below Zero.

Colder weather tonight followed by
slowly rising temperature tomorrow
is the forecast of the weather bureau
this afternoon. It is predicted that
the temperature will fall down to
zero by early morning. But a notice-
able rise is forecast for tomorrow.

The temperature at seven o'clock
this morning was four degrees above
zero and it is reported that the mer-
cury did not drop as low as zero any
time during the night. The mercury
rose slowly during the day.

In stead of lowering this afternoon
the temperature rose which is not
as it usually does. The mercury
managed to rise to fourteen above by
noon and at three o'clock this after-
noon it was two degrees higher than
that.

There were falls in temperature,
ranging from 20 to 30 degrees in the
north central States and as far west
as the Missouri river, during the
twenty-four hours ending at seven
o'clock, but in the far west tempera-
tures were about normal.

In the Atlantic coast States the
temperatures were above normal, the
cold area not having yet reached
there. The coldest place in the coun-
try was Grand Fork, N. D., with tem-
perature of 24 degrees below zero,
but Devils Lake and Huron were close
rivals, being tied for second place,
with temperatures of 22 below zero.

Elwood Kirkwood of Manzy, the
weather bureau director and observer
for Rush county, has supplied some
more records on January weather for
the twenty years previous to those
made public by him last Tuesday.
At that time Mr. Kirkwood gave sta-
tistics for the last nine years, and
compared them with the weather con-
ditions in January, 1912. The records
for the twenty-one years previous
and those already supplied, cover the
weather records for January for the
last thirty years.

Mr. Kirkwood's records reveal that
the normal temperature for January
during the last thirty years was 26.2
degrees. The normal rainfall for the
period was 3.28 inches. The maxi-
mum monthly rainfall for the period
was 8.05 inches, which occurred in
1890 and 1907. The minimum monthly
rainfall for January during the thirty
years was .98 inches and occurred in
1902.

The records indicate that the
warmest January day in the last
thirty years was 71 degrees above
zero. This temperature was recorded
in 1906. The coldest day in January
the last thirty years was in 1884,
when the temperature dropped to 26
degrees below zero. The nearest ap-
proach to that during the cold wave
this year was twenty degrees below.

The coldest January in the last
thirty years was that of 1884, when
the minimum temperature was reach-
ed and when the average daily tem-
perature was 14.2 degrees above zero.
The warmest January during the pe-
riod was in 1890, when the average
daily temperature was 36.2 degrees
above zero.

The maximum daily range of Janu-
ary temperature for the period was
45 degrees, which occurred January
20, 1907. The maximum monthly
range for the thirty years was 82
degrees. The total range in tempera-
ture during January for the last
thirty years was 97 degrees. The

ducted by the Rev A. W. Jamieson.
Burial will be made in East Hill ce-
metery. The Odd Fellows will be in

ing mill.

URGED TO ATTEND AS A DELEGATE

Mayor Black is Requested to Appoint
Water Works Superintendent
and Health Officer.

SANITARY WATER SUPPLY MEET

The fifth annual meeting of the In-
diana Sanitary and Water Supply
Association will be held at the Ger-
man House, Indianapolis on February
15 and 16 and Mayor B. A. Black
has received a communication from
the secretary of the association in
which he urges the mayor to attend
the meeting as a delegate and to ap-
point the water works superintendent
and health officers as delegates to the
meeting.

The association has over one hun-
dred members, which include mayors
and other officials etc., of the State
who are interested in the conservation
and purification of the sources of
water supply in the State. The as-
sociation is in affiliation with the
State board of health. The program
is of vital interest to every city and
town in the State and those on the
program are high officials and widely
known as thoroughly conversant with
the subjects to be discussed. The
matter of sending delegates from here
to the meeting will probably be taken
up with the city council by Mayor
Black. There will be a complimen-
tary luncheon at noon Thursday and
a banquet Thursday evening.

WALDRON FARMER HAS STATE RECORD

Henry C. Jones Ships 35 Car Loads
of Hogs to Indianapolis During
Last Year.

RECEIVES \$40,000 FOR THEM

Henry C. Jones, a well known
farmer and stock raiser of Waldron,
Ind., who is a guest at the Denison
Hotel probably holds the record
among Indiana farmers for market-
ing hogs in Indianapolis in 1911, says
the Indianapolis Star. In the twelve
months he shipped thirty-five car
loads from his farm and received ap-
proximately \$40,000. Jones came in
yesterday with his sixth car load
since January 1. He is one of the
biggest stock raisers in the State.
His specialty is hogs. A hog on the
Jones farm receives as much care
and attention as a high-priced horse
or cow. A stock barn to care for
several hundred porkers is being
erected by Mr. Jones on one of his
farms near Waldron.

JOHN W. CASADY DIED LAST NIGHT

Aged Pioneer of Rush County Ex-
pired at His Morgan Street
Home at 11:30

HEART DILATION WAS CAUSE

Eight Children Were Born and Six
Survive—Born 4 Miles West
of City.

John W. Casady, died at his home
at 332 North Morgan street Thursday
night at 11:30 o'clock, following an
illness of several years, its immediate
cause being dilation of the heart.

Mr. Casady was one of the five
sons of the late Sampson and Cor-
nelia Casady, early Rush county pio-
neers, and was born at the old home,
four miles west of Rushville, Decem-
ber 25, 1837, having just passed his
seventy-fourth birthday anniversary.

On September 22, 1862, he was
married to Tabitha Plummer, who
survives him. The six surviving chil-
dren, of a family of eight, born to
this union, are P. M. Casady of In-
dianapolis; Mrs. J. E. Caldwell of
Jackson township; Edward Casady,
and the Misses Margaret, Nelle and
Emma Casady of this city. One sis-
ter, Mrs. Elizabeth Pearsey, of this
place, and one brother, Robert Cas-
ady, of Indianapolis, also survive him.

From the date of his marriage up
to the time of his removal to Rush-
ville from his home farm, southwest
of the city in 1890, Mr. Casady was
engaged in farming and dairying.
Failing health forced his retirement
from active work on the farm.

Mr. Casady became a member of
the First Presbyterian church in this
city, January 16, 1911. He was a
devoted father and husband, a man
of fixed convictions, to which he was
always true, much decision of char-
acter and acted well his part in life's
brief drama.

The funeral services will be con-
ducted from the late residence Sun-
day afternoon at two o'clock. The
services will be in charge of the Rev.
J. B. Meacham of the First Presby-
terian church, assisted by the Rev.
Cyrus Yocum. Burial in East Hill

BOY THREATENS TO KILL FAMILY

Forrest Joyce, Sixteen-Years-Old
Runs Mother From Home at
Point of Gun.

LEAVES WHEN POLICE ARRIVE

Chief of Police McAllister answer-
ed a call last evening to the home of
Mrs. Edward Joyce, in North Jack-
son street and found that Forrest
Joyce, the sixteen-year-old son of
Mrs. Joyce, had driven the family
out of the house at the point of a
revolver. Mrs. Joyce told the officer
the boy was in the house armed with
a shotgun, a revolver and a large
knife and she was afraid he would
kill some one. The woman was very
much frightened as were the children.

Chief McAllister entered the house,
but the boy had gone, taking the knife
and revolver. Mrs. Joyce said she
has had much trouble of late with
her son and was unable to do any-
thing with him. She stated he con-
tinually whipped his younger broth-
ers. Chief McAllister did not locate
the boy and it is thought he went to
some relatives north of the city.

INTERNATIONAL SUNDAY SCHOOL LESSON

Moody Bible Institute, Chicago.

LESSON FOR JANUARY 21

THE BIRTH OF CHRIST.

LESSON TEXT—Luke 2:1-20.
MEMORY VERSES—10, 11.
GOLDEN TEXT—"For unto you is born this day in the city of David a Savior, which is Christ the Lord."—Luke 2:11.

Almost twenty centuries ago, in an obscure village in Palestine, an event occurred which has had more influence upon the history of the human race than any other event since time began. A child was born—not an unusual event surely. He was no child of distinguished parents, nor a prospective ruler of a world's empire. He was born in a stable, and cradled in a manger. And yet around that lowly crib and humble birth, the life, thoughts, and love of millions have from that day to this been centered. During these two thousand years many noble births have been registered, but none so great as this. Emperors, monarchs, and mighty men have lived and died, and are forgotten; nations have risen and waned:

but the birth of the Christ child is more influential in this day than on the first birthday of our age twenty centuries ago.

The announcement of Christ's birth was made by angels. What more fitting accompaniment could there be to such an august event! How interested angels are in the welfare of mankind! How gladly they told the Christmas story to a handful of poor shepherds! How free from pride they were! They were not content that one of their number should tell the story—they all broke out in that great Christmas anthem.

Do we believe in angels any more? We used to. We used to sing "there are angels hovering round." If we believe the Bible, we still believe in the ministry of angels.

Onward we go for still we hear them singing:
Angels sing on, your faithful watches keeping.
Sing us sweet fragments of the song above.

The announcement was made to a small band of shepherds. No angelic host went to the Sanhedrin, or to the palace of Herod and broke the news of the birth of the Christ child. Is there not a lesson here? Does not God have special regard for the lowly and the humble? Hath not God chosen the weak things to confound the mighty? If angels were willing to preach to a few farmers, should the preacher be ashamed of ministering to a small and humble people, or the

Sunday school teacher to a small class?

The scholars of the land were also notified of Christ's birth. The Scripture does not say—"not any wise men are called," but "not many." It is a mistake to say that religion is good enough for women, and children, but not for strong, brainy men. The brainiest men of the ages have been Christian men.

That the birth of Christ was mysterious and miraculous need not disturb us. How Christ's body was prepared, how the divine and human could become one—who can tell? We do not even understand our own birth, let alone His. If ever anything of a miraculous nature should take place, when should it be if not now when the King of all laws is coming into the world? Let us be careful lest in denying the virgin birth, we challenge the purity of the Virgin's life.

The birth of Christ was the coming of God to and in man, not that God had never come to man before, for he had. But he had come only as a sojourner. In Christ he came to abide. His name is "Immanuel—God with us." Whatever else the incarnation may mean, it certainly means that God took our nature and became as one of us—he came unto his own.

The birth of Christ brings to us good tidings of great joy. If the angels sang, should not we? He came to save not angels, but men. The first note of this angelic song is a note of gladness, and song has characterized Christianity.

This birth in Bethlehem shows God's attitude toward men. God has good will toward men. He is not the hard, severe judge that men so often wrongly picture him to be. Sinner, you have cursed God, but he has not cursed you back; you have lifted your hands against him, but he has not destroyed you. He has thoughts of kindness, and of love toward you. If you have wrong thoughts of God, let them die away in the music of that first Christmas anthem, "good will toward men."

The Christian story brings to us also a Savior. Jesus Christ was born with reference to sin. He was the only man that ever was born with reference to that great fact. Other great men were teachers and reformers—he alone could save men from their sins. His name shall be called Jesus and he shall save his people from their sins. This is good tidings of great joy to a sin-stricken world. If Christ the Lord cannot save you from your sins, no one else can.

He is a personal Savior—unto you he was born; he is a mighty Savior—he is Christ, the Anointed.

(6.) Why were Joseph and Mary not to be censured, for travelling abroad at such a momentous and critical time?

(7.) Verse 7—Do we need to do anything special, except doing our every day duty, to help God bring to pass at the exact time and place whatever he has planned for us? Give your reasons.

(8.) Why was it the plan of God that Jesus should be born in Bethlehem in a stable, and cradled in a manger?

(9.) Does God have more interest in the masses or the classes, that is in the poor or the rich?

(10.) How do you account for it that no person gave up his room in the inn, and that no private citizen offered hospitality to a woman of such respectability, in such a serious condition?

(11.) Verses 8-10—Which method assures us of the more Divine revelations and why, specifically seeking them, or devoutly attending to our every day duties?

(12.) May any godly person in these days ever expect to be visited by an angel?

(14.) Verses 11-12—Why was the birth of Jesus good tidings to the shepherds and to all men?

(15.) Does wealth, or social position, or education, make people more sensitive to the supernatural, than the opposites of these things?

(16.) Verses 13-14—Did this host of angels come at this moment, or were they already there and the eyes of the shepherds "suddenly" opened, and their ears attuned, to see and hear them?

(17.) What if any reason is there to believe that we are constantly surrounded with a host of angels?

(18.) Verses 15-16—How much hurt or help would this revelation have been to the shepherds, if they had gone to Bethlehem to see for themselves?

(19.) Verses 17-18—How much obligation rests upon Christians, to make Jesus known to the world?

(20.) Verses 19-20—How is it that when we find out the facts concerning Jesus, that our hearts are so mightily stirred? (This is one of the questions that may be answered in writing by members of the club.)

Christian Endeavor By E. P. Gates

TOPIC FOR JANUARY 21.

Worth-While Ambitions. John 17:20-24; Rom. 8:18-21.

Occasionally we read of some man that breaks the records for eating pies or oysters or watermelons. So many people are ambitious to be called the "champion" of something. And how foolish and ridiculous many of these ambitions are!

An ambition that has not for its purpose some positive good is worthless. A business acquaintance, referring to a man that some years back had cheated him, said, "I'll get that man in my power some day and then I'll ruin him." An ambition the working out of which brings loss or pain to another is criminal.

Ambitions that tend to develop mind and body are worth while. Ambitions to increase efficiency, to be helpful, to render useful service, are commendable. Ambitions for wealth, power and fame are worthy if attained honestly.

Study the ambitions of the men who have served the world most nobly—Paul, Luther, John Knox, Washington, Lincoln, D. L. Moody, Francis E. Clark and others of like character. They were ambitious to serve, wherever God put them and they did their duty.

Christ was ambitious for his disciples: "that they may be made perfect." He is ambitious now for every one to know God and it is he that makes the knowledge possible. The greatest tragedy is for a man to ignore Christ's ambition for him and stay afar off from God and remain lost.

Let us covet the best things. We should cultivate ambitions that endure. "Seek ye first the kingdom of God and his righteousness and all these things shall be added unto you."

ELBRIDGE HANEY

His Illness Causes Postponement of Hearing in the Lorimer Case.

Washington, Jan. 19.—The investigation into the election of Senator Lorimer of Illinois has adjourned again because of the continued illness of Elbridge Haney of counsel for Mr. Lorimer.

CLEMENCY EXTENDED TO CHARLES W. MORSE

President Gives Bank Wrecker a Chance to Die in Freedom.

Washington, Jan. 19.—The sentence of Charles W. Morse has been commuted by President Taft, to expire at once. This action was decided upon following the receipt of a report from Surgeon General Torney of the army, who told Attorney General Wickersham that Morse could not live more than one month longer if kept in confinement nor more than six months if released.

Charles W. Morse was convicted in the federal court in New York on Nov. 5, 1908, of having misapplied the funds and made false entries in the books of the National Bank of North America, of which he was vice president. He was sentenced the next day to fifteen years in the federal prison at Atlanta.

Morse Was Eliminated.

Before the panic of 1907 Morse's operations were subject of comment in the financial district. The conservatives feared he was over-extending himself. When the panic came he had a string of four important New York banks, the American Ice company and the Consolidated Steamship company, which was a merger of the coastwise companies. In the panic he was eliminated from everything, and then came the criminal prosecution. In passing sentence Judge Hough said that Morse had used the bank and the depositors' money for his own speculative purposes. "If such schemes did not entail severe punishment," said the court, "the public is at the mercy of adventurers rich enough to buy up the control of a bank."

In 1901 Morse married the divorced wife of Charles F. Dodge. In 1904 Dodge asserted that he had never been served in the divorce proceedings. The validity of the Dodge-Morse marriage was upheld and Abe Hummel, Dodge's lawyer, was sent to jail for a year for perjury. Mrs. Morse has been indefatigable in her efforts to secure her husband's release.

Illness Detains Him.

Atlanta, Ga., Jan. 19.—"Thank God," said Charles W. Morse, when told that he had been pardoned by President Taft. While the pardon removes Morse from the watchful eyes of the government, it is hardly probable that he will leave the fort soon. The present indications are that it will be some time before he is able to stand even the short trip to the city, and until he is he will remain in the ward he has occupied since being transferred from prison.

Three Banquets in One Night. Washington, Jan. 19.—President Taft began his 1912 travels today with a trip to New Haven, where he will spend the night, and after the Yale corporation meeting tomorrow will go to New York, where he is scheduled to attend three banquets, that of the New York Bar association, the Society of the Genesee and the Twenty-four Kar-at club.

Kellogg's

TOASTED CORN FLAKES

It's the national favorite—never was a food so popular before. Last year the country ate more **KELLOGG'S** than all the other brands together, and there's hardly a home that doesn't serve **KELLOGG'S** regularly. The tempting filmy flakes have made a hit with the nation's appetite.

From youngsters up, the enchanting flavor of the tender, meaty, sun-ripened sweethearts of white corn, has made good. And you're missing the treat of your life if you're not serving the most delightful of all foods in your home. Try it tomorrow and let the children's vote decide.

OWNER COMPELLED TO FUMIGATE HOUSE

Attorney General Honan Says One Who Fails to Comply is Liable to Prosecution.

IN EMERGENCY COUNTY PAYS

In an opinion to Dr. J. N. Hurty, secretary of the State board of health, Attorney General-Honan said yesterday that he believed the statute provides that the owner of a home should stand the expense of having it fumigated, if he be financially responsible. The owner of a home who fails to comply with the orders of the health officials is liable for prosecution under the penal provisions of the statute, and possibly liable to a civil action, Mr. Honan declared. If, however, a health officer deems it necessary to enforce fumigation without waiting to comply with the statute, the attorney general held that the emergency fund may be taken from the county's fund. But, if the owner was unable to pay, the funds might be taken from the county treasury.

It takes a fire in a fire-proof building to bother the firemen much nowadays.

If Woodrow Wilson succeeds in knocking Mr. Bryan into a cocked hat, we presume he would then proceed to sit on the "lid."

Wall street practically stopped business during the Equitable fire, showing there is no great loss without some small gain.

If they had only called out the Vet firemen with the hand tub, we feel sure the Equitable building might have been saved.

Andrew Carnegie is to be depicted in a statue representing him in the act of handing out a book. We hope the book is some real enduring classic like the base ball guide for 1912.

The "grizzly bear" and "turkey trot" dances are bad enough, but at least the dancers wear clothes, which is not the case with the stage dances that are supposed to be high art.

Although the Democratic convention is to be held at Baltimore, it does not follow that all the delegates will live on terrapin. The principles of Jeffersonian democracy can be exemplified by ordering fish balls.

Imagine if you can that January day in 1906 when the temperature was seventy-one degrees above zero.

And think how much worse it might have been this year.

Remember, (naw, naw, not the Ides of March) but that January day in 1884, when the bottom fell out of the thermometers and the temperature stood at twenty-six below.

We recall that day well and we hope you do too. This is not done in the spirit of malice in bringing up the skeletons of the past, but consider! What are you kicking about? Think what it might have been.

"Where did the expression," asks a correspondent and earnest believer in all uplift movements conducted by this Colyum, "Go to the dickens" originate?"

We urge those who are not taking this Colyum into their home every day to begin doing so at once as it will be the only place wherein (or in which, as you like it) daily announcements of the maneuverings of this treatise will appear

FOUR ADDITIONS AT CHRISTIAN CHURCH

Are First to Make Week of Prayer and Week of Simultaneous Meetings Here.

NO SERVICES SUNDAY NIGHT

Four additions to the Main Street Christian church last night are the first to mark the week of prayer and the week of simultaneous meetings in the churches here. The Rev. Cyrus Yocum preached last night on the subject, "Sow a Life and Reap a Destiny," and tonight the last meeting this week, his subject will be "Christ the Justice at Nazareth." A good crowd was out.

The Rev. George L. Brown of Indianapolis will close the week of meetings at the United Presbyterian church with a sermon at two-thirty o'clock tomorrow afternoon. Last night he preached on the subject, "An All Sufficient Savior" and tonight his topic will be "Counterfeit Religion."

This week's meetings will be concluded at the St. Paul M. E. church with a sermon by the pastor on the subject, "The Incomparable Loss." Last night his subject was "The Unpardonable Sin." R. W. Rowe sang twice last night and will render special numbers this evening. Sunday night the Rev. V. W. Tevis will preach and Sunday morning communion services will be held. The attendance last night was good considering the weather conditions.

"The Wages" was the topic of the sermon at the First Baptist church last night. The Rev. L. B. Arvin will preach tonight on the subject, "The Seed and the Harvest."

What Our Neighbors Are Talking About

AS GOOD AS NEW CASTLE.

(New Castle Times.)

Prosecutor O'Neil of Rushville has just recovered from a spell of sickness and now he says he is going to make a lot of law violators sicker'n he was and make them be good for some time. He proposes to institute at once a vigorous campaign against all law violators, and make an especial effort to stop gambling in all forms and see if he can not make Rushville approximately as good as New Castle, for instance.

The blind tigers have been made to feel the power of the prosecutor and the saloons have been given a drastic lesson or two and now the gamblers come in for their share of the glory.

OVERLAND MODEL 59T

The 1912 Overland Car

Show me where there is anything to compete with it, regardless of price or quality. This is, to the man that knows automobile values, these cars at these low values speak for themselves. They need no explanation. But to the man who has never owned a Car, and is now in the market for one, we simply ask him to compare it with others, and the economy of buying an Overland will be apparent, even to a novice.

Our line this year is comprised of 10 Models—variety enough so that none need to look elsewhere, and they are thoroughly high grade automobiles—large, roomy, and as well built as any of the highest price cars on the market. They could be more elaborately made, but no better.

ACCOUNTING OF SANTA FUND

Detailed Report of Expenses Show

Balance of \$21.66 on Right

Side of Ledger.

\$157.52 EXPENDED LAST YEAR

Deemed Advisable to Turn Balance

Over to Charity Workers Who

Will Organize Soon.

The business of the Daily Republican Santa Claus fund has just been settled up. In order to make a plain itemized accounting of the expenditures it was necessary in obtaining itemized accounts from the places where purchased and some delay was experienced in obtaining these.

It will be remembered that the fund totaled \$179.18. This was \$24.02 more than was contributed to the 1910 fund. It was attempted to spend the money judiciously with a view of pleasing the little folks.

The report shows a balance of \$21.66. This balance is due to the fact that so much money came in at the last moment that it was impossible to spend all of it so the best returns could be had. It was necessary to tie up the bundles the Saturday before and after they were once ready it was next to impossible to purchase to replenish the bundles. The sum spent in the fund purchases and for expenses of delivering was \$157.52.

It had been deemed advisable to turn the balance of \$21.66 over to local charity workers who assisted in making the fund a success and who are doing a great work among the poor of Rushville. They will perfect an organization soon and the sum will be paid this organization. This plan has been followed in the past. Following is the report:

99 dolls	\$17.45
30 books	6.16
60 doll playthings	8.28
28 iron toys	2.80
176 games	28.88
99 miscellaneous toys	11.69
151½ pounds candy	26.62
14 reebers	5.60
76 yards dress goods	9.68
150 pounds nuts	24.00
300 sacks	2.75
306 oranges	5.36
Livery and auto hire	4.50
Help in delivering	1.50
Heat and light in wrapping room	1.50
Picture show banner	1.25
Total	\$157.52
Balance on hand	\$21.66
Received in fund	\$179.18

SIX AT CITY HOTEL.

Six men appealed to Chief McAllister last night for a place to sleep and were taken to the city hotel which is being maintained at the Salvation Army church. Three of the men gave their home as Louisville, one, Knightstown, Anderson and Greenfield.

IN "The Phantom of the Opera," Gaston Leroux has conceived the most imaginative and still realistic plot that has as yet sprung from his fertile fancy.

His use of the Grand Opera House of Paris, his magnificent staging upon its boards of a story as eloquent as any ever acted thereon in actual fact, his genius and subtle analysis of character, his revealing in the realm of fantasy, all mark him as having accomplished a work of vast unusual interest and of marvelous grip upon the fancy of the reader.—Baltimore American.

We will print this remarkable story as our next serial.

AMUSEMENTS

The Princess will have the usual two pictures tonight showing as the first a Lubin drama, "A Newsboy's Luck." It is the story of the rise of a poor boy to success and is very true to life. "The Story of the Indian Ledge," is an interesting Edison western drama. "The Battle" will be the attraction Monday and Tuesday nights.

The Portola will have a feature program tonight showing three reels. By special request the picture entitled, "Our Navy," in which Glen Smith a Rushville boy is seen, will be shown again tonight. Glen Smith is the son of Mr. and Mrs. Ed Smith and has been in the navy about two years. In the picture he is seen on board one of the battleships. "The Girl Back East" is a thrilling western drama by the Essanay company. "A Trial of Books" is a Biography drama, said to be very interesting. Special music will be included in the program.

Fresh from its long and prosperous run at the Casino Theater in New York, and also at one of the prominent Chicago playhouses, the "Kiss Waltz," with the important metropolitan cast, will be sung at the Shubert Murat Theater beginning Monday, January 22d, with the usual

matinees. The players will include Eva Davenport, in the role of the ex-coachman's wife, Robert Warwick, as the composer, and 65 others. "The Kiss Waltz" is one of the first musical plays to be brought out on Broadway. Its success was immediate and it was heralded as "the dancingest show" in New York. The piece was originally done in Vienna under the title of "The Love Waltz."

The play abounds in big and novel dancing numbers and there are rare moments of fun when nothing short of an explosion of laughter will give relief. There are two acts. The first shows a hotel on the Riviera and the second the Villa Wildenberg. In both scenes there are many pretty girls and displays of handsome costumes.

The principal character is Guido Spini, a handsome composer, who falls in love with every pretty woman he meets. He has many opportunities, for the ladies of the hotel are simply crazy about him. Nella, Baroness von Barnau, has the affection, but she can not show it. It is arranged that she go to the home of the Countess Wildenberg, where Guido is invited. He mistakes the quarry and makes love to the Countess, and of course, is discovered by the irate husband. There are over fourteen characters in all.

Matinees will be presented on Wednesday and Saturday. Monday evening will be Mystic Shriners Night.

GIRL COULD NOT SLEEP

Miss Van Steenburg, a Brooklyn girl, lately found herself unable to sleep. Of course she was worried because there is nothing that will more quickly and certainly wreck health than to be unable to rest at night.

Now sleeplessness is just a symptom of failing health, and is caused by unequal circulation of the blood. Someone evidently gave her some good advice, for she says in a recent letter, "I had been all run down and tired out for some time and got so I could not sleep nights. I had heard so much about Vinol that I tried it and found it highly satisfactory.

"It has restored my strength, made me able to sleep and eat well, and I am now quite well again."

This delicious cod liver oil and iron preparation without oil (Vinol) does wonders in building up weak, nervous, sickly people of all ages. It makes the blood rich and pure, corrects the faulty circulation and restores appetite. We promise to give back the money in case Vinol does not please you. F. B. THAT QUESTION OF ABDICATION

Will Probably Be Settled By China Today.

TALKING THE MATTER OVER

The Empress Dowager and the Imperial Princes Are in Conference at Peking Today and It Is Believed Final Settlement of the Question of Abdication Will Be Made—Prospects of Peace More Hopeful.

Peking, Jan. 19.—Premier Yuan Shih Kai, who has been granted three days' sick leave, is not in attendance at the conference today of the empress dowager and the imperial princes at which it is believed a final settlement of the question of abdication will be made. There has evidently been some weakening on one or both sides and the determination to fight out the differences between the imperials and republicans is no longer insisted upon. The negotiations between the government here and the republicans at Shanghai and Nanking have evidently eased the strain of opposition to the republic.

It is said that the understanding between the republican leaders and the imperial clan provides that two edicts shall be issued at once, the first of which will empower Premier Yuan Shih Kai to establish a republican form of government. Yuan will accept, whereupon the delegates at the Nanking conference will elect him president of the republic. Sun Yat Sen retiring in his favor. Yuan will accept the presidency. Then a second edict announcing the abdication of the throne. After the abdication Sun Yat Sen will come to Peking to confer with Yuan Shih Kai in regard to the formation of the new government. Yuan proposes to grant the court pensions amounting to about \$3,000,000 per annum. Special honor will be shown the dowager empress because her husband, the late Kwang Hsu, was the first reformer among modern emperors of China.

A More Hopeful View.

Shanghai, Jan. 19.—It is stated here that the republican leaders have reason for believing that they will succeed in getting a loan in America which will be secured by the properties which they hold at Wuchang. The republicans here have apparently settled favorably the question of guaranteeing promises of pensions to the members of the imperial clan with President Sun Yat Sen. Other movements in the direction of peace both by Sun Yat Sen and the Peking authorities are advancing favorably and there is a more hopeful view all around.

POLICE JIU JITSU

New York's "Finest" Being Trained by Army Instructor.

New York, Jan. 19.—Police Commissioner Waldo has found a substitute for the nightstick as a means of subduing criminals and toughs. Mr. Waldo has hired Tom Jenkins, the wrestling master, to teach policemen the science of catch-as-catch-can. The commissioner believes that wrestling will be a quicker, surer and less brutal method of overpowering dangerous citizens than the old style way of clubbing them into insensibility. He thinks that in a short time magistrates will have no more cause to complain of brutality on the part of policemen.

Jenkins is instructor of wrestling at West Point and evolved a system that is a combination of wrestling, boxing and jiu jitsu—a plan of putting the other fellow out of the fight rapidly and completely. So the commissioner wrote to the secretary of war, asking permission to borrow Jenkins. The war department complied with the request and Big Tom has begun a series of twenty-four lessons to the New York policemen. Jenkins will come to New York from West Point three times a week for eight weeks. The policemen are enthusiastic about the innovation.

Evidences of Foul Play.

Brazil, Ind., Jan. 19.—Peter Kiefer, living west of Brazil, was killed by a switch engine on the C. & E. I. railroad. When Kiefer's body was picked up immediately after the accident a swollen wound was found on his forehead, indicating he had been struck before the engine hit and killed him. It is believed his body was thrown on the track to get rid of evidence of foul play.

PLENTY OF EVIDENCE OF DISCORD IN CUBA

Harmony Talk Is Taken With a Grain of Salt.

Havana, Jan. 19.—Unless it should turn out that the veterans are merely sparring for time, the restoration of throughout Cuba seems to be assured, unless it should turn out that the veterans are merely sparring for time. Sundry veteran leaders said that they would continue the patriotic work of ousting the "guerillas" from office and purifying the government. After a meeting of the veterans, however, General Nunez, the president of that association, and Colonel Coronado, one of the leaders, visited the palace and had a long conference with President Gomez, at the conclusion of which the president stated that both of the veterans declared that they would be the first to contribute toward the re-establishment of peace throughout the republic and would avoid every pretext which might compromise the independence of the country and that in order that all motives for disquiet should disappear, they would send peremptory circulars to all clubs of veterans ordering the abandonment of the campaign.

Despite these promises of the veterans, however, and the alleged harmony following the conference at the palace, there is plenty of evidence of discord and a belief prevails that the conflict has not been settled. General Nunez, the veteran leader, says he detects in the intervention threat collusion between Arthur M. Beaupre, the American minister here, and the government at Washington, perhaps for stock jobbing. Reports from Santiago and Camaguey show that there is indignation at these places at the American note, which is declared to be utterly unjustified.

PAPER BAG COOKING

Great System Perfected by M. Soyer, Famous London Chef.

INSURES ECONOMY OF FUEL.

By Martha McCulloch Williams. Paper bag cooking economizes fuel—the fact is demonstrable, beyond a doubt. Particularly if the fuel is gas. The figures to follow are given for gas, but are easy of translation into coal heat or even oil.

The oven of a gas range turned on full, burns twenty feet of gas an hour for each flame-bar. Commonly there are two bars—thus, the hourly consumption at full heat is forty feet. The giant burner on top likewise, at full head, consumes twenty feet an hour, the small burners, each ten feet. Thus a stove in full commission for pot and pan cooking consumes ninety feet an hour.

Now, for paper bag cooking the oven must be lighted and turned on full for eight minutes before anything goes into it; it must also burn full strength for seven minutes longer. Thus, it consumes ten feet of gas at the outset. Turning out one burner to reduce the heat one-half at the end of the seven minute period reduces consumption to fifteen feet for the rest of the hour, making a total of twenty-five feet against forty. But roasting does not demand that a burner goes full—turning it down might save five feet in the hour. Thus the net hour-saving of gas on the oven account is ten feet.

But there are other accounts. By help of paper bags, you can not merely roast in the oven, but cook at the same time a couple of vegetables and bake a pie or pudding. With a small roast you may even cook three vegetables, thereby leaving unlighted three upper jets, which would mean a saving of thirty feet of gas an hour. Cooking thus solely in the oven means a saving of fifty feet of gas an hour.

Nor is this even all the story. Mysteriously, things cook more quickly in bags than out of them. The saving in time is one-fifth to one-sixth.

Putting this at the lowest, and estimating the whole range consumption of gas at ninety feet, there is a saving of fifteen feet. Add them to the fifty feet already in credit, and the sum is flattering, indeed, to the paper bag.

A Little Story of Pie Baking. I had baked a pie a la Soyer and found it good. Notwithstanding, I resolved to show myself exactly the worth of the bag-cooking.

I made up puff paste enough for three pies, rolled out the crusts and filled a pan, using cooked fresh peaches for a filling. I put it on to cook, in its naked majesty, noting the time accurately. It took ten minutes to roll crusts, fill, and put in a greased bag the second pie. The oven was so hot by that time that I slacked the heat a minute after putting in pie number two. After twenty minutes—thirty minutes from putting in the first pie—I looked in the oven. The naked pie was cooking creditably enough, yet was pale-faced, and the crust still dentable to the touch. Further, there were bubbles of syrup along sundry spaces of the edge.

I turned on a little more heat and left the two pies to cook fifteen minutes longer. The naked one was then a pale, delicate brown on top, with rather a hard undercrust. The bag was brown all over and so crisp the corners crumbled at the touch. But

from it came a pie beautiful to behold—light, not pale brown, crisp and flaky as to crust, ready to leave the pan at the first tilt, for a plate. (Copyright, 1911, by the Associated Literary Press.)

SAVORIES FOR SUPPER.

By Nicholas Soyer, Chef of Brooks' Club, London.

Fish Roe a la Soyer.—Place half the roe on top of a piece of buttered toast, put peeled mushroom on top, add salt and pepper to taste, and a little piece of butter. Place the other half of the roe on top of the mushroom, add a little cayenne pepper, a pinch of grated cheese (Parmesan, or any other kind), a few bread crumbs and another piece of butter. Place in buttered bag, seal up and place on broiler. Allow ten minutes in a hot oven.

Savory of Lobster.—Cut a small lobster from head to tail. Cut the flesh into small dice. Put in small stewpan with one tablespoonful of white sauce, one tablespoonful of cream; add salt and cayenne or other pepper to taste, and one teaspoonful of grated Parmesan. Mix up well, and place in the cavity of the shells. Put a little grated Parmesan on top, and a little bread crumb and butter. Put in a paper bag. Place on broiler. Allow ten minutes in hot oven.

Savory Oysters.—Take two tablespoonfuls of white sauce, one teaspoonful of grated cheese, one tablespoonful of cream, the liquor from the oysters and seasoning to taste. Take half a dozen deep oyster shells. Put a little of the above mixture at the bottom; then put the raw breaded oyster in the middle. Add a little more of the sauce on top, with a little bread crumb and a small piece of butter. Place your buttered bag on the broiler, put your oysters carefully inside, seal up and allow eight minutes in a very hot oven. (Copyright, 1911, by Sturgis & Walton Company.)

THE PRESIDENT APPROVES PLAN

Congress to Investigate Certain Financial Activities.

FIGURING ON PROCEEDURE

Just What Form of Committee Shall Be Appointed to Look Into Affairs of the "Atlantic Pool," the International Harvester Company and "Money Trust" Is Now a Matter That Is Engaging the Attention of the Solons.

Washington, Jan. 19.—Inquiries into three great commercial interests—the foreign shipping combine, better known the "Atlantic pool," the International Harvester company, and an organized entity that has come to be referred to as the money trust are foreshadowed in congress by developments in the house committee on rules.

It has become known that President Taft approves, or at least does not disapprove the proposed investigation into the activities of the foreign shipping combine, which according to Representative Humphrey of Washington, a Republican, violates the Sherman act and the railroad rate law, and imposes restrictions on American commerce that tends to a restraint of trade. The president's attitude toward the shipping combine was disclosed at a hearing before the committee on rules. Mr. Humphrey made the statement that it was Mr. Taft's belief in case action was held to be desirable, that any inquiry undertaken in the case of the foreign shipping combine should be made jointly by the house and senate. Mr. Humphrey declared that it was the president's opinion that as an investigation of the shipping combine would to some extent have a bearing on our international relations, the senate as a part of the treaty making power should have representation in such inquiry.

From what has been learned, the Democratic leaders of the house intend to follow the suggestion of the president. In fact, Representative Hardy of Texas, a Democrat, introduced soon after the committee meeting a resolution providing for a joint inquiry into the affairs of the shipping combine. There is good reason to believe the resolution will be reported favorably.

Statements indicate that the house leaders do not believe a special committee should be created to probe the affairs of the harvester company. This concern has directors who serve in a like capacity with the United States Steel corporation. There is a strong probability that supplemental legislation will be passed directing the Stanley committee to bring the affairs of the harvester company within the scope of its investigation.

For all practical purposes the triangular plan to bring the shipping trust, the harvester company and the money trust within the scope of one inquiry has been abandoned. Present indications are that the shipping combine and the harvester company will be treated as indicated and a resolution passed authorizing a special inquiry into the activities of the various banks and corporations that comprise what is known as the money trust.

MINERS SIT DOWN ON PLANS OF SOCIALISTS

Refuse to Indorse That Political Party.

Indianapolis, Jan. 19.—When a resolution to indorse the Socialist party as the party of the workingman was voted down the attempt of the Socialist element in the United Mine Workers' organization to capture the convention in session here was frustrated. The movement for the secession of the organization from the American Federation of Labor was also voted down, but the convention adopted a resolution declaring in favor of the industrial form of organization by crafts. The convention also indorsed the bill introduced in congress by Congressman Victor L. Berger, the Socialist member from Milwaukee, providing for government pensions for men and women who have reached the age of sixty years, and invited Congressman Berger to come here and address the convention.

The vote on the question of indorsing the Socialist party was a defeat for the Socialist movement in the convention. It stood 515 to 155 in favor of adopting the resolutions committee's substitute for the resolution of indorsement. The report of the tellers was submitted and John P. White was shown to have been elected president over Tom Lewis by a majority of 45,424. Lewis received 58,591 and White 104,015 votes. Frank J. Hayes was elected vice president and Edwin Perry secretary-treasurer.

BIG BATCH OF INDICTMENTS

Looked for in the Case of Dynamiters.

MANY COUNTS ARE EXPECTED

From the Probably Voluminous Nature of a Large Number of Indictments Looked for When Federal Grand Jury Makes Its Forthcoming Report It Is Thought a Bushel Basket Will Be Required to Contain Them All.

Indianapolis, Jan. 19.—When the dynamite investigation closes, in about two weeks, the expectation at the government building is that literally "a bushel of indictments" will be returned. At least thirty indictments are expected. Many of these, it is thought, will be voluminous, as against a good many of the men alleged to have been involved in the dynamite conspiracy, a large number of counts are expected. Thus the bulk of indictments, it is thought, will be so large that at least a Lushel basket will be necessary to hold the papers.

Frank Eckhoff, the Cincinnati core-maker, who was a close friend of J. J. McNamara, and shared many of the latter's secrets, has left Indianapolis. This young man, whom it is believed McNamara was training with the ultimate purpose of inducing him to become a member of the dynamiting gang, had been here a month. Thus for more than thirty days he was on the government pay roll. It is said he has been before the grand jury several times, but that his testimony has now been completed.

ELECTROCUTED

Factory Foreman and Young Woman Victims of Live Wire.

Logansport, Ind., Jan. 19.—Samuel Watkins, aged forty, and Edith Schroeder, twenty, were electrocuted and the South Side Broom company's factory, where they were employed, was destroyed by fire. Watkins, who was the manager, apparently went to the switch controlling the current used in "sparkling" a gasoline engine. He received the full primary current. It is supposed the girl went to his rescue and in trying to drag him away received a similar voltage. Fred Buckman, who dragged the bodies from the burning building, was severely burned and may die. Jacob Westeweller, assistant fire chief, was severely shocked by a live wire.

The city high tension wire became crossed with a 110-volt wire leading to the factory, and when Watkins turned on the power 2,300 volts passed through his body. The plant was owned by W. H. Maxwell.

Within the last two years six people have been killed here as the result of crossed wires.

Burglars Put Up Fierce Fight.

Bloomington, Ind., Jan. 19.—After a desperate fight, in which they were compelled to call on the fire department for assistance, Patrolmen Hinkle and Stevens arrested Henry Wilson and Fred Lewis, negroes, in the Campbell department store. The negroes were burglarizing the store and had scattered goods over three floors when they were discovered.

Came Near Creating Panic.

Evansville, Ind., Jan. 19.—During the second act of the performance of "The Man From Home," at the Wells-Bijou theater here, J. Lee Darneal, a stage hand, fell from the top of the "flies" to the concrete floor of the stage, a distance of sixty feet. His skull was fractured and he died. The accident almost caused a panic in the theater.

The Coroner's Verdict.

Owensville, Ind., Jan. 19.—That Leslie C. Hunter, the young business man who died very suddenly at his home here, committed suicide by taking a quantity of strychnine, is the verdict of Coroner Bass. The motive for the deed was financial reverses. Hunter had confessed to forging the name of several wealthy farmers to notes.

Prison For McKnight.

Few Merchants Turn Out to Regular Meeting of Association in Court House.

JUST INFORMAL GATHERING

Business Men Discuss I. & C. Traction Line Extension to Cincinnati From Rushville.

Traction extension talk was the paramount topic at the regular meeting of the Rushville Retail Merchants Association meeting in the court house last night. Although enough merchants were not present to take any very definite action in regard to the matter plans were devised for taking steps toward interesting the people southeast of Rushville in the Cincinnati extension of the Indianapolis & Cincinnati Traction Company's lines.

The weather was very disagreeable last night and for that reason mainly there were only a few merchants present. The regular order of business was left out and the meeting resolved itself into a little informal gathering.

The Rushville Retail Merchants Association, although realizing that the extension is in the distance yet, want to be on the ground early and boosting for the extension from Rushville. They realize that besides helping Rushville it will also help people in the small towns through which the line may pass if extended from this city.

The whole upshot of the conversation concerning the traction extension was that merchants at the meeting concluded it would be a wise course to pursue to confer with Charles L. Henry, president of the I. & C. if he will spare them a bit of his valuable time.

Two or three members of the Association hope to arrange for a conference with Mr. Henry in the near future when they expect, as representatives of the merchants of Rushville to pledge the support of the Association to be of whatever assistance possible in obtaining a right-of-way, in case it is decided to extend the line from this city by way of Brookville and other small towns into Harrison, Ohio, and thence into Cincinnati.

It was the consensus of opinion at the meeting last night that the route from this city, while it would be a benefit to Rushville, it would also benefit towns between here and Harrison, Ohio, which at present, have no steam or electric lines. The merchants believe the farmers and residents of the small towns along the proposed route would clamor for the route once they were assured there was any chance of obtaining it.

The merchants believe, naturally enough, that the extension from this city would be much more profitable for the I. & C. than the extension from either Connersville or Greensburg. Besides their opinion being slightly prejudiced by their interest in their own city they pointed out that the extension from this city would open up undeveloped territory in one sense which would not be the case in extending from the other two points mentioned.

The merchants discussed this point at length and recalled that the I. & C. would have competition over all of the routes with the exception of the local one. In extending from Greensburg the I. & C. would have to compete with the main line of the Big Four out of Greensburg, and by extending from Connersville, through Liberty, College Corner and Hamilton, Ohio, they would have to compete with the C. H. & D.

THAT WATER SUPPLY.

New Castle Courier: The fire Wednesday night in the business section of the city demonstrated in a most convincing manner that New Castle's water supply must be improved before the firemen can successfully combat a big conflagration. If the firemen would have been compelled to pour water on the fire two hours longer Wednesday night, the supply in the reservoirs at the waterworks would have been exhausted.

BROOKVILLE MAN NEW PRESIDENT

Col. Daniel Ryan is Elected Head of Knightstown Soldiers' and Sailors' Orphans Home.

HE SUCCEEDS PETER STULTZ

President Will Retire May 1, Due to Age and Partly on Account of Other Business.

Col. Daniel Ryan of Brookville, numbered among the most prominent Grand Army men of Indiana, was elected superintendent of the Indiana Soldiers' and Sailors' Orphans Home, south of Knightstown, at a meeting of the board of trustees of the institution, says the Indianapolis Star. The meeting was held at the Denison Hotel.

Col. Ryan will succeed Peter P. Stultz, whose resignation has been accepted by the board, to become effective May 1. The new superintendent will take charge of the home at that time.

Col. Ryan served through the civil war and in 1898 he was department commander of the Indiana G. A. R. In 1891 he was elected department chaplain, and in 1909 he was chosen chaplain in chief of the national organization. Mr. Ryan also is a minister of the Methodist Episcopal church.

The meeting yesterday was attended by all the members of the board, which is composed of Luther Short, Franklin, president; F. F. Boltz, Bluffton, vice president; Daniel F. Mustard, Anderson, treasurer, and Mrs. Ida S. McBride, Indianapolis, secretary.

At the meeting of the board in November Mr. Stultz offered his resignation to become effective May 1. Since then the board has had under consideration several men who were considered eligible for the place.

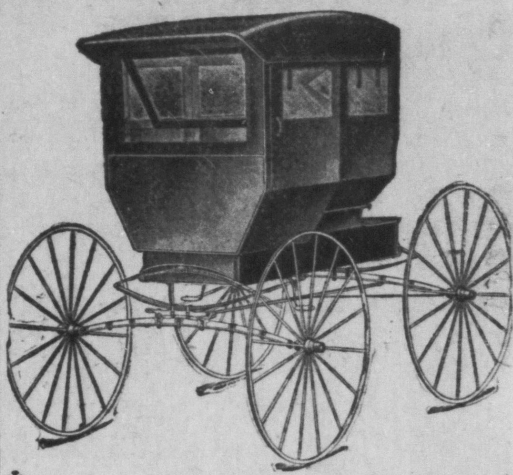

President Short said last evening that it was the desire of Mr. Stultz to retire from the superintendency of the home, partly on account of his years and partly on account of other business.

Charles Durham, Lovington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear through on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two thirds of a bottle he was cured. That is about six weeks ago and he has not wet the bed since." F. B. Johnson & Co.
